The balance sheet for the 2019 financial year shows an asset valued at € 130 956 with a decrease of 32% compared to 2018. These variations are mainly due to the fact that the most significant part of the budget these last years consists in the subsidy received for H2020 TARGET program. Indeed we have received at the end of 2018 85% of the overall budget (192k€), the balance will be paid at the end of the program in december 2021.

The income statement for the year 2019 is in deficit of - € 12441, slightly up compared to 2018 (-10 083€).

The financial situation is nevertheless healthy thanks to the bank reserves and financial resources of the association which amounted to € 91 183€ at 31/12/2019.

After presentation and exchanges, the approval of the accounts for the year 2019 are submitted to the votes of the members present and represented: **Unanimously approved.**

### **Debt cancellation on 2019 uncollected contributions**

As is done every year, the assembly must decide on the cancellation of the debt contracted by the association on the member contributions issued but not collected in 2018. The amount of the uncollected contributions for 2018 amounts to 29000 €.
